MANUFACTURER DIRECTED MAINTENANCE

As a responsible manufacturer AJS Motorcycles Limited may occasionally request that your servicing dealer carries out additional maintenance procedures that are not specified in your maintenance schedule. These maintenance procedures should be recorded by your dealer in the table below.

DATE	REFERENCE No.	WORK CARRIED OUT

SERVICE RECORD

The following pages are used to record services and maintenance carried out by your authorized AJS dealer or AJS approved dealer. You will enjoy your motorcycling experience at a higher level knowing that your motorcycle has been serviced to the high standard demanded by AJS Motorcycles Limited.

A service history which proves that your motorcycle has been meticulously maintained may be of value if you decide to sell your AJS motorcycle.

Please be aware that your motorcycle may require more frequent maintenance if operated in severe climates or conditions such as dusty environments, or if you make short stop-start journeys. You can obtain further information and advice from your authorised AJS dealer or AJS approved dealer.

IMPORTANT

To maintain your warranty be sure to adhere to the requirements of the **AJS Service Schedule and AJS Maintenance Operation sheets.**

The Maintenance Operation sheets can be downloaded from:
www.ajsmotorcycles.co.uk
Make sure your dealer services your bike according to these sheets.

Great care has been taken in the selection of materials, surface finishing, painting and plating process to ensure that your AJS motorcycle is finished to a high standard and high quality appearance. However motorcycles are often used in hostile or severe environmental conditions and therefore great care must be taken to prevent the degradation of surface finishes. Such preventative measures include washing, drying, applying wax to painted surfaces and applying moisture repellents such as Scottoiler FS365 or ACF50 to chrome and alloy parts. Your dealer can provide more information and advice if required.

The visual appearance of your motorcycle, over time, will ultimately depend upon the care it receives from you. A guide to good motorcycle care can be found on the AJS web site: www.ajsmotorcycles.co.uk
